<a href="#">The Sidwell Company</a>	X	X	X	X			X	X	X	X	<a href="#">CT3088MVSC</a>
<a href="#">Timmons Group</a>							X	X	X	X	<a href="#">CT3088MVTG</a>
<a href="#">Woolpert</a>							X	X	X	X	<a href="#">CT3088MVWOLPERT</a>

The above agreements were competitively sourced formerly and available for use by all State of Iowa Agencies and Political Sub-Divisions within the State of Iowa in lieu of a separate competitive selection process at the discretion of the purchasing entity. The Iowa Department of Administrative Services recommends that buyers shop among the contractors for the best price on the configuration or service they are looking for and negotiate prices for large volume buys. The use of these contracts does not necessarily guarantee the lowest price available on any particular need. Organizations purchasing from these contracts should exercise prudent business judgment. Purchase Orders must be sent directly to the contractor and show the Contract Number. Questions or comments regarding the agreements are to be directed to Ashley Super, Iowa Department of Administrative Services, General Services Enterprise, Hoover State Office Building, Level A, Des Moines, IA 50319. Ph: 515-281-7073; Fax: 515-242-5974. Email: [Ashley.Super@iowa.gov](mailto:Ashley.Super@iowa.gov).

*The unique element to any geographic information system that differentiates it from other information systems is that it contains spatial information. The key to all GIS data and the engine driving the technology is that information is organized by location, it is geographically referenced, and the GIS data model uses geometric principles to support analysis and integration.*
